

TECHNICAL DATA SHEET

Superlite Body Filler

Description

Edgechem Superlite Body Filler is a polyester based advance formulation which guarantees a fast tack-free finish. After catalyzed with Benzoyl Peroxide (BPO cream hardener), the product is applied smoothly and offers easy sanding without clogging of sandpaper, Superlite body filler is non-bleeding.

Compatible Substrates

Suitable for repairing damaged vehicle surfaces, repairing steel and rigid substrates.

Preparation

Surface Cleaning

Remove water-based contamination with soap and water e.g.: dirt and bird droppings. Remove oil-based contaminant with degreaser/solvent cleaner. E.g.: oil, wax and grease. Grind/sand repair area with 36, 40, 80 grit as required sand. after drying in stages with P80-P240. Re-clean repaired area appropriately.

Application

Coats

Use spreader to apply a thin and even layer of properly catalyzed mixture of body filler to damaged area. Apply additional layers until body filler is slightly higher than original surface allowing for sanding. Allow to dry appropriately then sand as required.

Mixing

Superlite body filler	BPO hardener
100 parts	2.5 parts
4" diameter circle	4" line across

Dry Times

Tack free/ : 25 - 30 minutes 25°C

Clean Up

Clean up with Edgechem Lacquer Thinner

Properties

VOC	-	60 g/l 0.50 lbs/gal
Shelf life	-	1 year
Viscosity	-	1300 – 1350 cp
Colour	-	Grey Blue
Coverage Rate-		32 ft ² /Gal

Limitations:

Edgechem products should not be combined with components of other product lines.

Precautionary Information:

The contents of this package may have to be blended with other components before the product can be used. Before opening the packages, be sure you understand the warning messages on the labels of all components, since the mixture will have hazards of all its parts. Spray equipment must be handled with due care and in accordance with manufacturer's recommendations. Follow label directions for respirator use. Wear eye and skin protection. Observe all applicable precautions.
